Branch	No	Interview Questions	Answer
	1	What is your name?	R house - Dinner & Lounge.
	2	What brought you to adopt orphaned animals?	At the present time, she witnesses a lot of abandoned pets, leading to pets always being sick, sick, hungry, malnourished and very pitiful. Therefore, she wants to take in abandoned and abandoned pets to care for and nurture.
	3	Before doing this project, did you have experience taking care of abandoned dogs/cats ? Or have you studied a related major?	She has a special love for cats and dogs. Before that, although she did not go to school for training, she learned and accumulated a lot of experience in caring for and raising dogs and cats. Later, she realized her dream of opening a cafe for homeless dogs and cats.
	4	Do you cooperate with anyone in pets health care?	When she needs to take care of her pets' health, she will take them to the nearest veterinary station for timely care and treatment. Some veterinary stations include: PetJoy, AniPet,...
	5	During operations, if customers adopt pets, do you agree with this? And do you have any regulations for adopters to avoid abandoned dogs/cats being taken away for trading purposes?	Yes, I completely agree with customers accepting pets into new homes. However, to avoid the situation where pets are sold. We also have regulations to prevent this such as:

			<ul style="list-style-type: none"> - Periodically monitor the pet's situation after being adopted, to promptly detect and handle violations. - Have a clear policy on revoking custody of pets if the adopter violates their commitments.
6	Is the source of funding for you to raise and support needy abandoned dogs/cats from sponsors or from yourself?		<p>She funds most of her pet expenses through her own restaurant business.</p> <p>In addition, we have added additional services for customers bringing pets. We will help take care of them and take them out when the owner is busy or dining at our store.</p>
7	<p>Do you have direct experience with adopting a stray pet?</p> <p>If so, can you share the positive experiences and challenges you encountered?</p>		<p>She once adopted a puppy that had one leg amputated at birth. With such an amputated leg, the pet has difficulty moving independently and is picky about eating. Therefore, at first, the care and medical support Sue (the dog's name) encountered many difficulties. However, the positive thing she experienced was that Sue's personality and eating habits became increasingly positive.</p>

Veterinarian	1	What is your name?	Nguyen Ngoc Minh Chau
	2	What job are you currently doing, and where do you work? (HCM, VTAU, BD, Hanoi,...)	Hoang Chau-Di An Veterinary Clinic. Physician assistant and pet care.
	3	At your store, are there many ownerless pets brought in for care?	Occasionally, people still bring orphaned dogs and cats to her for diagnosis, care, and health support.
	4	And how do you see the condition of those dogs/cats?	Most of the time, when the dogs/cats are brought here, they are almost in a state of malnutrition, mold, and disease. Medical examination and treatment costs for dogs and cats are quite expensive.
	5	Currently, our group is implementing a project "adopting abandoned dogs/cats". Are you willing to be reasonable with this project to take care of small dogs/cats?	Regarding this issue, I really want to cooperate. However, I still have a few personal projects. If I can arrange it, I will contact you.
